Designed for a young girl who dreams of her own apartment but still enjoys the comforts of home, this bedroom by Mary Sferra of M.R. Sferra Interior Design softens the requisite teen purple to a chic lavender, as seen in the bedding, marble fireplace surround and fireplace wall. Sferra wrapped the room in off-white grass cloth with shimmering silver accents peeking through. Stained-glass windows found throughout the home inspired the custom tufted patchwork headboard, while a shapely lounge chair and string-effect side table create a cozy sitting area by the fireplace. A sleek desk and clear acrylic chair provide a good spot to study, text or daydream about the future.
